

The GE SME Development Program, an initiative supported by GE Oil & Gas and being implemented by PYXERA Global, is seeking qualified Ghanaian SMEs to join its multi-year capacity building program. The program aims to build the technical, health and safety, and quality management capacity and capabilities of select **Ghanaian SMEs** associated with the oil/gas sector.

Companies interested in participating in this highly competitive and selective program must first fully satisfy stringent documentation and registration requirements as described below.

**Requirements for Program Consideration – Applicants to submit proof of the following:**

1. Legal Registration;
2. Petroleum Commission Registration;
3. Proof of Tax Payments & Social Security Contributions;
4. Audited Financial Statements for minimum of 2 years;
5. 100% Ghanaian ownership;
6. Demonstrated and sustained experience in one of select service support sectors (*Spares, Calibration, Machining and Light Fabrication*). Other support areas may be considered.

For consideration, companies must complete and submit an SME Application Form, available at <http://survey.clicktools.com/app/survey/go.jsp?iv=3xrdnnykma6y> Full and complete applications/assessments MUST BE submitted online no later than 17:00 on September 22, 2017. Candidates selected for further assessment and review will be contacted directly.

For further information on this program, please contact Kofi Koomson at [kkoomson@pyxeraglobal.org](mailto:kkoomson@pyxeraglobal.org).
